The Town of Waterbury has been awarded a Better Connections grant of \$97,500 to study the possibility of improving the safety and accessibility of the Waterbury Center Village and surrounding area for drivers, pedestrians, bicyclists, and other vulnerable road users. We are hiring a consultant to assist with facilitating a community engagement and visioning process and propose solutions to the lack of connectivity between the shops, services, residents and recreational assets. We are seeking individuals to serve on two committees:

- **Steering Committee:** This group of 8-12 individuals will meet virtually or in person roughly once a month to help guide the project. The group will include town leaders, local business owners, residents, community group representatives, and others who have a strong interest in the project's success. (Those not selected for the Steering Committee will be invited to serve on the Advisory Committee.)
- **Advisory Committee:** This larger group (perhaps 20-30 people) will convene just a few times over the next year to share thoughts and offer guidance and input on possible actions that Waterbury Center should take. These gatherings will include at least one walking tour of the area to generate input for the consultants to consider.

**If you are interested in serving on either committee, please provide the following information:**
