

Project Overview

The Main Street project involves "full depth reconstruction" of Main Street, including replacement of all municipal water and sewer infrastructure and storm drains. The project will include under-grounding of aerial utilities in the business core of the downtown. New sidewalks, period lampposts, landscaping, informational kiosks, wayfinding signs, hanging flower baskets, and banners will enhance the entire downtown.

Project Area & Timeline

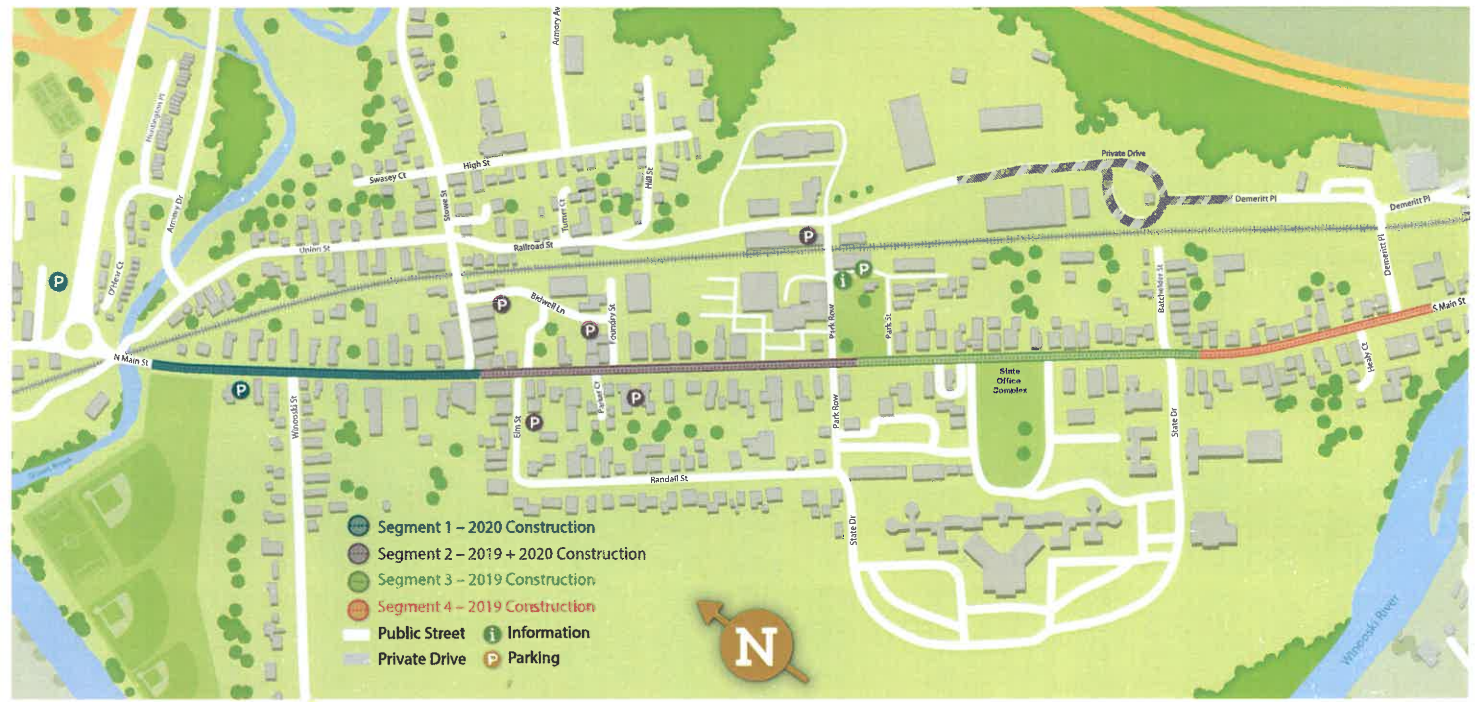

From 2019 through July 2021, Main Street reconstruction will take place for approximately 1 mile between the railroad bridge by the roundabout to just beyond Demeritt Place. The construction season is April through November, weather permitting.

WATERBURY
WORKS MOVING FORWARD.
 TOGETHER

Anticipated Hours of Operation

Beginning in mid-April 2019, construction work hours will be approximately 7 am to 7 pm, Monday through Friday, with occasional evening hours.

- The Main Street work zone will be broken down into four segments. Segment 1 starts by the railroad bridge on North Main Street and Segment 4 ends a short distance past Demeritt Place on South Main Street.
- Beginning in April 2019, construction is planned to start on South Main Street at Park Street (Segment 3) and work south towards Demeritt Place (Segment 4).
- Construction is currently planned to begin Segment 2 in late summer 2019, updates to follow.
- Construction in Segments 1 and 2 is planned to be completed in 2020.
- Street amenities, tree replacement, and landscaping are planned to be completed by July 2021.
- Planned work is subject to changes and modifications.
