Waterbury Center is launching a planning process to create safe, accessible, and inviting connections to the places we all care about — from the Triangle Green to local parks, businesses, and gathering spots.

Gather with neighbors and friends to share your ideas and help shape the future of walking and biking in our community.

LIGHT REFRESHMENTS — 12PM

Please join us at Hope Davey Park Pavilion for light refreshments and conversations about how to make Waterbury Center a safer, more welcoming place to walk and bike.

COMMUNITY WALKING TOUR — 12:30PM

Take a relaxed, one mile walk with us to see what's working, what's not, and where we can make improvements. The walk will be at a conversational pace along roadways without sidewalks. (Safety vests provided, first come first served!)
