

Colbyville Pedestrian/Bicycle Scoping Study

The Town and Village of Waterbury are sponsoring a public work session to look at the addition of sidewalks or other walking and bicycling facilities in Colbyville.

Wednesday, January 4, 7:00 PM
Municipal Center at 28 N. Main Street

Come learn about existing conditions, talk about the issues, and discuss where it makes sense to add sidewalks or other improvements in Colbyville.

To view the existing conditions report when it is ready, visit www.waterburyvt.com or the Broadreach Planning & Design website: www.broadreachpd.com and go to *Projects/Current* and then *Colbyville*. Information will be available on-line the morning of December 28, 2016.

To leave comments about the project, email Broadreach Planning & Design
bikeped@gmavt.net
